

Minor Consent & Confidentiality Fact Sheet

Under Texas law, a minor, defined as anyone under the age of 18, may alone consent to counseling for suicide prevention or sexual, physical, or emotional abuse.¹

Texas law requires a minor patient's parent(s) or legal guardian to consent to the prescription of any medication to the minor.

Mindpath Health requires the following with respect to treatment of minor patients in Texas:

- For minor patients under age 18 who <u>are not</u> seeking counseling for suicide prevention or sexual, physical, or emotional abuse:
 - The minor patient's parent(s) or legal guardian must sign the Consent to Treatment on the minor patient's behalf
 - The minor patient's parent(s) or legal guardian must sign the Consent to Medications forms in order for the minor to be prescribed any medications
- For minor patients under age 18 who <u>are</u> seeking counseling for suicide prevention or sexual, physical or emotional abuse:
 - The minor patient must sign the Consent to Treatment form and Mindpath Health strongly encourages the minor patient's parent(s) or legal guardian to also sign the Consent to Treatment form, although not required by law
 - The minor patient's parent(s) or legal guardian must sign a Consent to Medications form in order for the minor to be prescribed any medications
 - In order to discuss the minor patient's treatment with and disclose the minor's medical information to their parent(s) or legal guardian, the minor must sign the Authorization for Use or Disclosure of Health Information form specifically authorizing disclosure to the minor's parent(s) or legal guardian

In general, Mindpath Health providers will make reasonable efforts, as appropriate consistent with Texas law, to involve the minor patient's parent(s) or legal guardian in their treatment, which may include the parent(s) or legal guardian's participation in treatment sessions.
